April 4th, 2009

To Judge Henley,

I have been asking my defense team, for few months to translate the most recent hearing sessions. However, he informed me that he was waiting for the judge's approval. However, I received the first hearing session translated without any difficulties. My lawyer told me that he has been writing to the judge several times, and has not gotten the approval from him yet. He also wrote to the court Clarke, and has not received an answer from the Court Clark . I did receive a copy of the most recent hearing of: September, December, January, but it is in English, and my English is very weak, and I need it to be translated. Also, By reviewing the previous translation, we have found some errors. I do not know weather the translations, need the judge's approval , as my attorney asserted.
